

Your Agenda at a Glance

Don't miss out on any of the action - take a look at this quick agenda guide to ensure you get the most out of the RPA World Series

6 - 9 September 2016
www.rpaworldseries.com

Event Day 1: Tuesday 6th September

Morning Session: 10:00 AM EST

Enterprise RPA – a Transformation Platform. What's the Right One for You?

Join us to discuss the different types of RPA, the benefits of each, and the functional and operational requirements of an enterprise-strength RPA capability. You'll also learn about the technical features and functions of RPA technology, and gain tips on which questions to ask vendors to ensure you are picking the right solution for your business.

Panelists:

Pat Geary, Chief Marketing Officer, Blue Prism

Kevin Whittingham, Product Manager, Blue Prism

Afternoon Session: 12:00 PM EST

RPA Case Study: 10 Robots, 1 Human and Limitless Opportunity for Growth

In this webinar, Mark Payne will explain how RPA drives faster processing and lower costs. As an early adopter of several projects in the BPO/shared services space, he will share examples of the types of solutions that can be implemented, the problems that have to be solved on the way, and the benefits.

Panelists:

Mark Payne, Senior Director, Global Shared Services

Event Day 2: Wednesday 7th September

Morning Session: 10:00 AM EST

Enterprise RPA from Automation Anywhere Powers Mission-critical Solutions in Life Sciences

Partnering with Automation Anywhere to drive this transformation, Becton Dickinson (BDX) is proud to share how enterprise-grade RPA projects are sourced, selected and implemented within a compliance oriented, highly regulated environment.

Panelists:

Steve Gordon, VP Global Shared Services, Becton, Dickinson and Company

Shail Khiyara, Chief Marketing Officer, Automation Anywhere

Afternoon Session: 12:00 PM EST

EMC: a Guide to Launching Successful RPA Projects [Excellence Award Winner 2016]

We've invited two of EMC's leading RPA activists to explain how they did it – from getting started (evaluating providers), to rolling out the project, to managing expectations, to partnering with functional towers, to rolling out solutions.

Frank and Joe will be happy to take your questions in this interactive session.

Panelists:

Joseph Cotnoir, Global Operations Manager – HR Shared Services, EMC

Frank Kelly, Sr. Manager, Digital Transformation, EMC

Event Day 3: Thursday 8th September

Morning Session: 10:00 AM EST

10 Myths That Can Derail Your Automation Program—And How to Debunk Them

Please join us in conversation as we address the following:

- Top 10 widely held beliefs that can derail your automation program—why they are more myth than reality, and how debunking those myths will accelerate your program
- Deployment Models and Approaches—including alternatives, typical timing and cost structures
- Implementation Best Practices—a practical roadmap and getting supportive buy-in from your organization

Panelists:

Becky Schultz, Director, ISG

Scott Furlong, Partner, Americas, ISG

Afternoon Session: 12:00 PM EST

TO BE CONFIRMED

Event Day 4: Friday 9th September

Morning Session: 09:00 AM EST

Nailing "Governance" in Enterprise RPA – Bank of Ireland

Bank of Ireland was challenged, like most businesses, with getting some basic processes automated. Specifically, it was looking for ways to rapidly automate mundane processes and free up people to focus on more customer-centric solutions. Blue Prism's software platform enabled the bank to respond rapidly to changing priorities and customer demands by creating its own automated solutions.

Join us to discover how the robotics platform is governed by IT to ensure it has the inherent layer of structure, governance, auditability and data security that IT requires.

Panelists:

Brian Halpin, Head of Robotic Process Automation, Bank Of Ireland, Bank of Ireland

Pat Geary, Chief Marketing Officer, Blue Prism

Afternoon Session: 10:30 AM EST

Artificial Intelligence and Intelligent Automation

In this webinar, Guy Kirkwood, UiPath's COO, discusses how the more modern RPA technologies leverage Artificial Intelligence to become "just the way you do automation." Guy illustrates this webinar with his BPO and Shared Services experience and knowledge of who is doing what, where and why.

Join and learn how modern RPA technology, infused with Artificial Intelligence, is driving automation solutions that set new standards for cost reduction; performance; scalability and extensibility – not tomorrow, but today!

Panelists:

Guy Kirkwood, Chief Operating Officer, UiPath
